

JUNKET TOURS

Digital Marketing & Advertising Playbook

How to attract foreign travellers to enquire and book through your own website

Prepared for the owner of Junket Tours
September 2026

Northern Pakistan | Hunza | Skardu | Fairy Meadows | Swat | Heritage tours | Visa invitation letters

Contents

1. Executive summary 3

2. Your audience and positioning 4

3. Foundation checklist: do this before any ads 5

4. Channel guide: costs, pros and cons 6

5. Budget tiers and expected results 8

6. Staged campaign plan 8

7. Sample ads and campaign naming 9

8. Tracking and measurement 11

9. The 90-day plan 12

10. SEO and AI-search visibility 13

11. What we need from you 14

12. Appendix 15

How to use this playbook

- Read sections 1 to 3 first. They cost almost nothing and decide whether ads will pay off.
- Sections 4 to 7 are for choosing channels and briefing a freelancer or agency.
- Section 8 has a box to hand directly to your website developer.
- Anything labelled **estimate - validate** is a planning figure, not a fact. Anything labelled **not verified** must be confirmed before you rely on it.

1. Executive summary

Goal: bring foreign travellers (USA, UK, Canada, Germany, Netherlands, Australia, the Gulf, Pakistani diaspora, and adventure, trekking and overland travellers) to your own website, where they send an enquiry or a 'book now' request. There is no online card payment; guests pay by bank transfer or Wise after you confirm the trip.

The plan in one paragraph: first make the business easy to trust (free profiles, reviews, licence numbers, named guides). Then make sure every enquiry can be traced back to the ad that produced it. Only then start a small Google Search campaign for people who are already searching for Pakistan trips. Add Instagram/Facebook retargeting and video from month 2, and judge the results honestly after 60 days.

The three rules

1

Build trust before spending

A foreign visitor is deciding whether to send money to an unknown company in a country their government warns about. Reviews, licence numbers, real guides and clear policies convert far more clicks into enquiries than clever ad copy.

2

Never spend on ads until tracking works

If you cannot see which ad produced which enquiry, you are guessing. The website is already built to record this; it only needs the account IDs switched on (section 8).

3

Judge after 60 days, not 6

Search campaigns need weeks to learn. Do not scale, or cancel, on the strength of the first week. Review weekly, decide at day 60.

Headline numbers at a glance

Item	Figure	Status
Suggested starting budget	USD 500 to 1,000 per month	Your choice (section 5)
Cost per enquiry from search	USD 10 to 35	Estimate - validate
Enquiry to booking rate	5% to 15%	Estimate - validate
Cost per booking	About USD 100 to 400	Estimate - validate
Margin per booking	USD 200 to 800	Estimate - use your real figure
Enquiries per month by month 3	15 to 40	Target, not a promise

If your real margin per booking is lower than the cost per booking you actually see after 60 days, pause and fix trust and conversion before adding money.

2. Your audience and positioning

Different travellers worry about different things. Write each landing page and ad for one group at a time.

Audience	What they care about	What to show them
USA, UK, Canada, Australia (independent and small-group travellers)	Safety, government advisories, trustworthy operator, USD prices, real reviews, clear refund policy	Safety page with links to official advisories, licence numbers, reviews, inclusions and exclusions
Germany, Netherlands (culture and trekking)	Detail, preparation, ethical operators, small groups, honest itineraries	Day-by-day itineraries, guide bios, altitude and difficulty notes, sample budgets
Adventure, trekking and overland travellers	Route facts, permits, seasons, experienced guides, flexibility	Route-by-route facts, best months, K2 / Fairy Meadows trek detail, photos from real trips
Gulf travellers	Comfort, family-friendly trips, cooler summer escapes	Private vehicles, family itineraries, accommodation standards
Pakistani diaspora (visiting or bringing partners and friends)	Trust from home, visa help for non-Pakistani guests, reliable logistics	Visa invitation letter service, WhatsApp contact, family-friendly packages

What every foreign visitor is silently asking

- **Is this operator real and licensed?** Show licence numbers, a verified office address and named staff.
- **Will I be safe?** Give facts and official links, never promises (see the box below).
- **What will it cost?** Transparent USD pricing, what is included, what is not, and the refund policy.
- **Have other people like me done this?** Real reviews on Tripadvisor and Google, and real trip photos.
- **Will someone speak English and answer me?** English-speaking guides and a WhatsApp number that gets answered.
- **Can you help with my visa?** A visa help page and the invitation letter service.

Suggested positioning line

Draft for your approval

Junket Tours: a licensed local operator planning private guided trips through northern Pakistan and its heritage cities, with clear USD pricing and visa support.

Only use 'licensed' once your licence numbers are on the website. Adjust the wording to what is true for your company.

Safety messaging: the rules

Read this before you write any ad or page

- The US State Department advisory for Pakistan is **Level 3, 'Reconsider Travel'** (updated 6 June 2026).
- The UK FCDO also advises against travel to some regions of Pakistan (updated 6 June 2026). **You must read the official FCDO page yourself before quoting any specifics.**
- Link to the official advisories from your safety page and landing pages, and give route-by-route facts (which valleys, which roads, what precautions you take).
- **Never use the word 'safe' as an absolute claim** ('100% safe', 'completely safe'). It is inaccurate and can cause ad disapprovals and lost trust.
- Press hook you can use: over 1.3 million international tourists visited Pakistan in 2024, up nearly 30% (source: Wego blog).

3. Foundation checklist: do this before any ads

Everything on this page is free. Foreign travellers check these places before they enquire, and AI assistants use them to decide who to recommend (section 10).

Profiles and reviews

- ☐ **Google Business Profile:** create and verify with your real office address, exactly as it appears on the website (same name, address, phone).
- ☐ **Tripadvisor:** claim or create the free business listing and add your website link.
- ☐ **Review-request routine:** after every trip, send the guest a WhatsApp message or email with a direct Tripadvisor review link and a direct Google review link (soon after the trip, while it is fresh).
- ☐ **Trustpilot:** create the free business profile.
- ☐ **Review targets before paid Tripadvisor exposure and before scaling ads:** 15+ Tripadvisor reviews and 20+ Google reviews.

On the website

- ☐ **Tourism licence numbers** displayed clearly (you supply them; see section 11).
- ☐ **Named guides with photos** and short bios.
- ☐ **WhatsApp number** visible on every page.
- ☐ **Safety page** with official advisory links and route-by-route facts.
- ☐ **Visa help page** explaining the invitation letter service.
- ☐ **Transparent inclusions and exclusions** on every tour page.
- ☐ **Refund and cancellation policy** in plain English.
- ☐ **Real trip photos** from past guests (with permission), not stock images.
- ☐ **One brand spelling** everywhere: 'Junket Tours'.

Why this comes first

Ads only deliver the click. Trust decides whether the visitor enquires. If the destination page has no licence, no reviews and no faces, you pay for clicks that leave.

4. Channel guide: costs, pros and cons

Each figure is labelled **[verified]** (found on a public source listed in the appendix) or **[not verified]** / **[estimate - validate]**.

Tripadvisor and Viator

- Basic business listing on Tripadvisor is free **[verified]**.
- Selling through Viator costs commission of about 20% to 30% (about 25% is typical) and bookings stay on Viator's platform, not your website **[verified: sambahq.com, operatorresources.viator.com]**.
- Viator Accelerate (higher commission for better placement) and Tripadvisor Business Advantage (a paid tier) exist. Business Advantage price **[not verified]**.
- Whether Viator accepts Pakistan operators, and multi-day tours, is **[not verified]**. Ask Viator directly.
- **Recommendation:** use Tripadvisor as a free trust and review channel. Skip paid Tripadvisor ads until you have about 15 reviews.

Tour marketplaces (side channel)

Marketplace	Cost	Status
TourRadar	Commission 15.25% to 20% + 1.75% technology fee + up to 3% payment fees, about 18.7% to 20% in total; no upfront cost	Verified: help.tourradar.com
Responsible Travel	15% total commission (10% agent + 5% Responsible Travel)	Verified: responsibletravel.com
GetYourGuide	About 20% to 30%; prefers day tours, so weaker fit for multi-day trips	Range verified
Bookmundi, Tripindicator, Klook, Intrepid	Terms and whether they accept Pakistan operators	Not verified

Marketplaces bring bookings that do **not** come through your own website. Treat them as a side channel and never let them replace your own enquiry flow.

Google Search Ads (best intent, start here)

- Average travel search cost per click is about USD 1.5 to 1.9 and click-through rate about 8% (Semrush / WordStream benchmarks).
- Pakistan keyword-level CPCs of USD 0.5 to 2.5 are an **estimate - validate** in Google Keyword Planner before setting budgets.
- Countries: US, UK, Canada, Germany, Netherlands, Australia, Gulf states.

Keywords to start with	Set-up rules
Pakistan tour packages Hunza tour Skardu trip Fairy Meadows trek K2 base camp trek Pakistan Karakoram Highway tour private guide Pakistan Pakistan tourist visa Pakistan visa invitation letter	Use exact and phrase match first. No broad match at the start. Negative keywords to add on day one: jobs, free, cheap, salary, and local-intent terms (for example searches from people already living in Pakistan looking for local buses or hotels). Policy warning [not verified]: the visa invitation letter service may fall under Google Ads 'travel document' policies. Check Google's current policy before advertising it. Use organic search for that page in the meantime.

Meta (Instagram and Facebook)

- Start with **retargeting** people who already visited your website, from month 2. Then test lookalike audiences.
- Estimate: cost per lead USD 8 to 25, but leads are lower quality than search leads (**estimate - validate**).
- Use real photos and short video. Send people to a specific tour page, not the home page.

Other channels

Channel	What to do	Cost / notes
YouTube, Shorts and creator trips	Host mid-size travel vloggers (10k to 200k followers) in exchange for a video and a link back to your site. Reuse footage on the website and ads.	Cost of the hosted trip; no ad fee
Forums and groups	Reddit, Lonely Planet Thorn Tree, Tripadvisor forum, Facebook groups (Pakistan travel, overlanders, Karakoram trekkers). Give genuine answers, say you are an operator, no hard selling.	Free, needs time each week
PR	Pitch travel writers: autumn in Hunza, heritage tours, new tourism numbers.	Free to pitch
B2B agencies	Email and LinkedIn to UK, US and German adventure travel agencies with a net-rate PDF, sample itinerary and references. Brings repeat groups.	Free; net rates reduce your margin
Trade shows and memberships	PATA, ATTA, ITB Berlin, WTM London. Start with Pakistan tourism board or ministry pavilions.	Fees not verified, high for this budget; subsidies not verified
Email marketing	Lead magnet (Pakistan trip planner or visa guide PDF), a 5-email nurture sequence, and a win-back email to past enquiries.	Low; email tool fee

5. Budget tiers and expected results

Monthly budget in US dollars. Pick one tier and stay on it for 60 days.

Tier	Total / month	Google Search	Meta	Content	Tools
A: Starter	USD 500	USD 300	USD 100	USD 50	USD 50
B: Recommended	USD 1,000	USD 550	USD 200	USD 150	USD 100
C: Growth	USD 2,000	USD 1,000	USD 450	USD 350	USD 200

'Content' means photography, video editing, and guide or article writing. 'Tools' means email software, a call-tracking or reporting tool if needed, and design software.

What to expect (all estimate - validate)

Measure	Planning range	Target
Cost per enquiry from search	USD 10 to 35	Under USD 30
Enquiry to booking rate	5% to 15%	8% or better
Cost per booking	About USD 100 to 400	Below your margin
Margin per booking	USD 200 to 800	Use your real number
Enquiries per month	n/a	15 to 40 by month 3

Simple arithmetic to keep in mind

Worked example (illustration only)

- Tier B, USD 550 on Google. If cost per enquiry is USD 25, that buys about 22 enquiries.
- At an 8% enquiry-to-booking rate, that is about 2 bookings, so the cost is about USD 275 per booking.
- If your margin per booking is USD 500, the ad spend earned back about USD 1,000 in margin on USD 550 of spend. If the real numbers differ, the answer changes; use your own figures after 60 days.

Your enquiry-to-booking rate depends on how fast and how well you reply. Answer every enquiry the same day if possible, on WhatsApp as well as email.

6. Staged campaign plan

Stage	When	What runs	Rule to move on
Stage 1	Months 1 to 2	Google Search only, exact and phrase match, 2 to 3 landing pages	Tracking works and enquiries are arriving
Stage 2	From month 2	Meta retargeting of website visitors, then lookalikes; YouTube Shorts and video	CPL is stable on Google
Stage 3	After 30+ conversions	Test Performance Max or Demand Gen with a small budget	Enough conversion data for Google to learn
Skip for now -		TikTok ads, Pinterest ads, Reddit ads, Tripadvisor ads at small budgets	Revisit only if budget reaches tier C and reviews are strong

7. Sample ads and campaign naming

Google responsive search ads allow up to 30 characters per headline and 90 per description. Character counts below were checked. Copy is honest by design: local operator, private guided trips, USD pricing, custom quote. Use 'licensed' only when your licence numbers are published, and do not add awards, numbers or scarcity you cannot prove.

Ad set A: Hunza tours

Type	Text	Chars
Headline 1	Hunza Valley Private Tours	26 / 30
Headline 2	Local Pakistan Tour Operator	28 / 30
Headline 3	Custom Hunza Itineraries	24 / 30
Headline 4	Prices in USD, Get a Quote	26 / 30
Headline 5	Private Guide and Driver	24 / 30
Headline 6	Karakoram Highway Trips	23 / 30
Description 1	Private guided Hunza trips planned by a local team. Enquire for a custom USD quote.	83 / 90
Description 2	English-speaking guides, flexible dates, clear inclusions. Tell us your travel plans.	85 / 90

Ad set B: Skardu and K2 region

Type	Text	Chars
Headline 1	Skardu and K2 Region Trips	26 / 30
Headline 2	Fairy Meadows Trek Guides	25 / 30
Headline 3	Private Guided Trekking	23 / 30
Headline 4	Local Team, USD Pricing	23 / 30
Headline 5	Plan Your Pakistan Trek	23 / 30
Headline 6	Enquire for a Custom Quote	26 / 30
Description 1	Guided treks and road trips in northern Pakistan by a local operator. Ask for a quote.	86 / 90
Description 2	Private trips with experienced local guides. See the itinerary and inclusions first.	84 / 90

Ad set C: Pakistan heritage tours

Type	Text	Chars
Headline 1	Lahore and Taxila Tours	23 / 30
Headline 2	Pakistan Heritage Tours	23 / 30
Headline 3	Private Cultural Guides	23 / 30
Headline 4	Local Pakistan Tour Operator	28 / 30
Headline 5	Custom Quote in USD	19 / 30
Headline 6	Plan Your Pakistan Trip	23 / 30
Description 1	Explore Lahore, Taxila and more with a private guide. Enquire for a custom USD quote.	85 / 90
Description 2	Heritage and culture trips planned by a local team. Visa help available on request.	83 / 90

Sample Meta (Instagram / Facebook) primary texts

Text 1 (198 characters): Planning a trip to northern Pakistan? Junket Tours is a local operator running private guided trips through Hunza, Skardu and Fairy Meadows. See a sample itinerary and ask for a custom quote in USD.

Text 2 (169 characters): Thinking about Pakistan but not sure where to start? Read our route-by-route facts and the official travel advisory links, then tell us your plans. We reply on WhatsApp.

Text 3 (155 characters): Lahore, Taxila and the old Silk Road cities, with a private local guide. Enquire for a custom heritage itinerary. Visa invitation letter support available.

UTM naming convention

UTM tags are short labels added to ad links so the website can record which ad produced each enquiry. Keep names lower case, with hyphens, and use the same pattern every time.

Tag	Meaning	Examples
utm_source	Where the click came from	google, facebook, instagram, youtube, newsletter
utm_medium	Type of traffic	cpc (paid search), paid-social, retargeting, email, referral
utm_campaign	Campaign: topic and country	hunza-tours-us, skardu-k2-uk, heritage-de
utm_content	Which ad or image	headline-set-a, video-hunza-autumn, image-fairy-meadows

Full example link

`yoursite.com/tours/hunza?utm_source=google&utm_medium=cpc&utm_campaign=hunza-tours-us&utm_content=headline-set-a`

8. Tracking and measurement

What is already built into your website

- Records visitor activity in Google Analytics 4 (GA4), using Consent Mode v2 and a cookie banner.
- Fires a **generate_lead** conversion on the thank-you page after an enquiry is sent.
- Captures UTM tags and ad click IDs (gclid for Google, fbclid for Meta) on the visitor's first visit, and saves a **'Lead source'** line inside each enquiry or booking request. In the admin you can see which ad produced which lead.
- Tracks clicks on WhatsApp, phone and email, and views of tour pages.
- Supports Meta Pixel plus Meta Conversions API, and the Google Ads conversion tag, as soon as the IDs are supplied.

What must be switched on (accounts to create)

Step	Create this	Give the developer
1	Google Analytics 4 property	Measurement ID (starts with G-)
2	Meta Pixel (in Meta Events Manager)	Pixel ID, plus a Conversions API access token
3	Google Ads account with a 'lead' conversion	Account ID (starts with AW-) and the conversion label
4	Google Search Console: verify the site	Verification code
5	Bing Webmaster Tools: verify the site	Verification code

Hand this to your developer

Please add the values below to the website's environment settings and redeploy. The tracking code is already in the site and stays inactive until each value is present. After deploying, send a test enquiry and confirm that (1) generate_lead appears in GA4 real-time reports, (2) the enquiry in the admin shows a 'Lead source' line when the test link carried UTM tags, and (3) the Google Ads and Meta conversion tests register.

Environment setting (name)	What it holds
NEXT_PUBLIC_GA4_ID	GA4 Measurement ID (G-...)
NEXT_PUBLIC_META_PIXEL_ID	Meta Pixel ID
META_CAPI_ACCESS_TOKEN	Meta Conversions API access token (keep private)
NEXT_PUBLIC_GOOGLE_ADS_ID	Google Ads ID (AW-...)
NEXT_PUBLIC_GOOGLE_ADS_LEAD_LABEL	Conversion label for the lead conversion
NEXT_PUBLIC_GOOGLE_SITE_VERIFICATION	Search Console verification code
NEXT_PUBLIC_BING_SITE_VERIFICATION	Bing Webmaster verification code

About the cookie banner

- Visitors who **accept** cookies enable advertising measurement. Visitors who **decline** are not tracked for ads.
- So your ad platforms will always see somewhat fewer conversions than really happen. Compare with the enquiries actually received in the admin, and judge by those.

9. The 90-day plan

Period	Actions
Days 1 to 14: set-up	- Switch on tracking (section 8) and run a test enquiry. - Create and verify Google Business Profile, Tripadvisor and Trustpilot profiles. - Publish licence numbers, safety page, visa help page, guide bios. - Build 2 to 3 landing pages: Hunza, Skardu, visa help. - Set the budget tier and give ad-account access.
Days 15 to 45: launch	- Launch Google Search on the top 20 to 30 exact-match keywords with 2 to 3 ad variants. - Start the review routine, including a message to past clients. - Answer questions in forums and groups (as an identified operator). - Contact 10 creators and 20 B2B agencies.
Days 46 to 90: expand	- Add Meta retargeting, then lookalikes. - Cut keywords and ads costing more than 2 times the target cost per enquiry. - Test one YouTube or Demand Gen campaign. - Send a press pitch. Judge results at day 60. No scaling until CPL is stable.

Weekly and monthly routines

When	Check	Action
Every week (30 minutes)	Spend, clicks, enquiries, cost per enquiry; search terms report	Add negative keywords; pause anything spending with no enquiries; reply time to enquiries
Every week	New reviews and forum questions	Reply to reviews; send review requests to last week's guests
Every month	KPI table below; which 'Lead source' produced bookings, not just enquiries	Move budget to what produces bookings; update guides and landing pages
Day 60	Cost per booking versus real margin	Decide: scale, fix, or stop a channel

KPI table

KPI	What it tells you	Target (estimate - validate)
Enquiries per month	Is demand arriving?	15 to 40 by month 3
Cost per lead (CPL)	Is spend efficient?	Under USD 30
Lead to booking rate	Is your follow-up and pricing working?	8% or better
Reviews count	Is trust growing?	15+ Tripadvisor, 20+ Google
Share of direct vs marketplace bookings	Are you building your own channel?	Direct share rising over time

10. SEO and AI-search visibility

Travellers increasingly ask ChatGPT, Claude, Perplexity, Gemini and Google AI Overviews where to go and who to book with. This section covers what the website already does and what your team must keep doing.

What the website already does

- Pages render fully for search and AI crawlers (no blank pages that need scripts to display).
- AI crawlers are explicitly allowed in robots.txt: OAI-SearchBot, ChatGPT-User, GPTBot, ClaudeBot, Claude-SearchBot, PerplexityBot, Google-Extended, Applebot-Extended.
- An **/llms.txt** summary file is published. Benefit is **low-certainty**: Google says it does not use it. It is harmless and cheap.
- Structured data (machine-readable labels) for TravelAgency, TouristTrip, TouristDestination, BreadcrumbList, BlogPosting and FAQ.
- New answer-first guides that state the answer in the opening lines.

The key principle

AI assistants recommend businesses that are confirmed elsewhere

- They lean on reviews, mentions and consistent details found **off your own site**: Google Business Profile, Tripadvisor, LinkedIn, YouTube, Trustpilot.
- Keep the business name, address and phone identical everywhere. Every real review and every honest mention helps.
- This is why section 3 (profiles and reviews) matters as much as any ad.

A note on FAQ snippets

Google removed FAQ rich results for most sites (7 May 2026, per search summaries). Keep visible question-and-answer content because readers and AI tools still use it, but do not expect FAQ rich snippets in Google results.

Content calendar: one guide a month

Month	Suggested guide
1	Best time to visit Hunza
2	Pakistan visa for US, UK and EU citizens
3	Pakistan travel for women
4	Hunza vs Skardu: which should you choose?
5 onward	Fairy Meadows and K2 region trekking basics; Lahore and Taxila heritage guide; Swat valley guide

Every guide should have **real photos**, a **named author**, a **'last updated' date** and **sources** for any fact or figure. Update the visa and safety guides whenever official advice changes.

11. What we need from you

Tick each item off and send it to the person running your marketing. Several of these unlock the whole plan, so start with the first three.

- ☐ **Tourism licence numbers** (and the name of the issuing body).
- ☐ **Real office address** exactly as you want it shown, for Google Business Profile.
- ☐ **Business registration name**, and confirmation to use one brand spelling: 'Junket Tours'.
- ☐ **Team and guide bios and photos** (name, role, languages, years guiding).
- ☐ **Past client testimonials with permission**: name, country, date of trip.
- ☐ **Real trip photos and videos** you own or have permission to use.
- ☐ **WhatsApp number** that is answered during working hours.
- ☐ **Social profile links** (Instagram, Facebook, YouTube, LinkedIn).
- ☐ **Chosen budget tier** (A, B or C) and your real margin per booking.
- ☐ **Ad-account access**: add your freelancer or agency as a user; never share your password.
- ☐ **Refund and cancellation policy** in writing, and sample inclusions/exclusions for each tour.
- ☐ **Someone who replies to enquiries the same day**.

If you hire a freelancer or agency

- Ask for access to the ad accounts in **your** name; you should own the accounts and the data.
- Ask for a weekly report showing spend, enquiries, cost per enquiry and the 'Lead source' of real bookings.
- Do not accept a promise of a fixed number of bookings. Agree on a 60-day review instead.
- Ask them to follow the rules in this playbook: exact and phrase match first, no absolute safety claims, no fake scarcity.

12. Appendix

A. Could not verify: confirm before relying

Item	What to do
Viator, GetYourGuide, TourRadar, Bookmundi and Tripindicator acceptance of Pakistan operators	Apply or email each platform and ask
Tripadvisor Business Advantage pricing and the current review-request tool	Check inside your Tripadvisor owner account
Keyword-level CPCs for Pakistan travel terms (USD 0.5 to 2.5 is an estimate)	Check in Google Keyword Planner
Google Ads policy for advertising visa invitation letters	Read Google Ads policy on travel documents before advertising
PATA, ATTA, ITB Berlin and WTM London fees, and any Pakistan pavilion subsidies	Ask the organisers and the tourism board
Exact names of the Pakistan tourism licensing bodies	Confirm with your licence documents
Meta cost-per-lead range (USD 8 to 25) and all conversion rates	Estimates; measure your own
